

ARCHITECTURAL REVIEW COMMITTEE APPLICATION PROCEDURE

**All Charbonneau homeowners are subject to the agreement between the Charbonneau Country Club and all individual homeowner associations regarding architectural control matters (originally adopted, 1995; revised, 2008). See the current edition of the Charbonneau Country Club Architectural Control Standards and Resident's Directory for details (also available at our association's website [www.choaonline.org](http://www.choaonline.org)). Note that when replacing concrete, asphalt, or other hard surfaces an irrigation inspection is required. An irrigation sleeve, installed by our landscape contractor, may be required at the owner's expense.**

The following procedure is to be followed by the homeowner and the Architectural Review Committee (ARC) when submitting, reviewing, and approving or disapproving plans for a requested change.

1. The homeowner must obtain or create plans for a requested change. The homeowner must review plans with any affected neighbors located within the line-of-sight of change. The homeowner must obtain affected neighbors' written approval of plans on Line-of-Sight Neighbors Approval Form (see p. 3 of this document).
2. The homeowner must submit an Architectural/Landscaping Change Request Form (see the next page). The request form must include, as appropriate, all plans, specifications, drawings, and a general description of work to be performed. The form must be signed by the owner submitting the request, and it must include the Line-of-Sight Neighbors Approval Form with the signatures of any affected neighbors.
3. After receipt of the written request, the ARC will make its decision in accordance with the architectural standards and guidelines of the Association and Charbonneau Country Club. The ARC has the discretion to withhold approval of any request if it would be inappropriate for the particular residence or incompatible with the architectural standards and guidelines of the Association.
4. Approval of a request must be made by a majority of the ARC or its designated representative. Approval or disapproval of a request must be delivered in writing to the owner. Failure to approve or disapprove a request within thirty (30) days of submission shall constitute an approval.
5. Any changes to plans after approval effectively cancels the approval and the owner must submit a new request with updated plans and a new Line-of-Sight Neighbor Approval Form.
6. Approval is valid for three (3) months after issuance and is automatically revoked unless work has begun during this three (3) month period of time. If work will not begin within three (3) months, the owner may apply for an extension of the approval.
7. If a request is not approved, the owner may appeal the ARC's decision to the Board of Directors. Appeals must be made in writing within ten (10) days of the ARC's decision. The Board will make a final decision within twenty (20) days of the request for appeal.
